JUNIOR SOFTWARE ENGINEER

SUMMARY

A Second year Software Engineering student at Bournemouth University with hands-on experience designing and developing full stack web applications using React, Node.js, Express, and JavaScript, both independently and in small team projects. Looking for a year long software engineering internship to develop my technical understanding whilst gaining industry experience.

SKILLS

Programming Languages: Proficient in JavaScript and Python.

Web Development: Experienced in frontend (HTML, CSS, React) and backend (Node.js, Express.js).

Agile Methodologies: Experienced in Agile and Scrum frameworks for effective project management.

ONLINE PROFILES

LinkedIn: linkedin.com/in/dominic-dawson-981b652b0/
GitHub: github.com/Dom056

INTERESTS

- 3D modelling, 3D printing, and electronics.

EDUCATION

Bournemouth University, UK
BSc (Hons) Software Engineering
2024 – Present
Expected Graduation: 2028

Relevant Modules:
- Programming
- Data Management
- Software Engineering
- Machine Learning

Key projects:
- Completed a set of Python projects, 17 small and 1 larger to demonstrate the fundamentals of programming.
- Developed an AI chatbot with a react frontend and an Express.js backend to handle chatbot requests and API responses.
- Created an SQL database backend for BAE Systems to manage an occupational health referral system.
